KESO Colour Caps

KESO identifiers for the 2000S, 2000S Omega und 4000S Omega systems.

KESO colour caps for the 2000S, 2000S Omega and 4000S Omega systems.

KESO colour caps ensure keys can be identified quickly and easily. Keys can each be individually assigned a different colour from the range of 18 RAL

colours. The design is far superior to conventional pull-on caps, is pleasant to touch and is extremely durable.

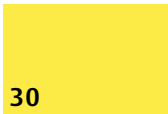

1. Colour cap for trapezium keys.

2. Colour cap for long keys and extra long keys.

Colour cap for trapezium keys.
A.405/ (colour number)

Colour cap set for long keys and extra long keys.
A.408/ (colour number)

 26 signal yellow	 27 light ivory	 28 luminous orange	 29 traffic orange	 30 sulphur yellow	 33 ruby red
 34 traffic red	 43 heather violet	 47 purple violet	 52 ultramarine blue	 54 pastel blue	 64 traffic green
 65 moss green	 68 yellow green	 74 signal grey	 86 fawn brown	 91 pure white	 92 graphite black

More colours, more shapes, greater ease.

Trapezium key with colour cap

The classic key in the KESO key range combines function with design. The extensive range of colours can be used in all systems.

Long keys and extra long keys with colour caps

Door fittings with protective disks require long keys or extra long keys. Thanks to an 8mm or 15mm key shank, cylinders with special protective fittings can also be used.

Doors with multi-point locking can be opened or closed more easily without much effort thanks to larger key heads due to greater leverage.

Example orders

Trapezium key, 2000S, moss green:
Item no. 20.970.000/65

Long key, 4000S Omega, ruby red:
