

KESO Control

Dear KESO partner,

The key depot KESO Control has been an integral part of KESO's extensive range for years. It has met requirements for an easy-to-use key management system in hotel receptions for decades.

As a result of new, state-of-the-art locking systems, key management requirements have changed, which is also reflected in sales figures for KESO Control. Moreover, purchasing individual parts for KESO Control is becoming noticeably more difficult. This situation has forced us to withdraw it from the market.

The following products are affected:

- 17.000
- 17.000.1
- 17.000.2
- 17.000.3
- 17.000.4
- Z.033/05

We can continue to offer you key storage cabinets 17.001-17.004 as an alternative. Replacement parts are still available for existing systems and can be supplied to you while stocks last.

We thank you for your understanding and cooperation. Please don't hesitate to contact us if you require any further information.

Best regards

KESO AG
